PART I. — NORTHERN TERRITORY : POPULATION.

PREFACE

This publication contains particulars of the population of the Northern Territory recorded at the 1954 Census. The distribution of the population is shown by districts, in urban and rural divisions and for localities with 50 or more persons while the characteristics of the population (Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status) are shown — (i) for the Territory as a whole in comparison with earlier Censuses, (ii) for the urban and rural divisions of the Territory and (iii) for the Territory as a whole in cross-classification with other recorded characteristics of the population.

Separate particulars are given for each sex, and 1954 Census totals for persons are provided for each characteristic. In addition, information is provided on the masculinity, density, and intercensal increases of the population of the Territory.

This is the first Part issued of the five Parts which will constitute the complete Census Volume for the Territories. The remaining Parts, which are in course of preparation, are Part II. — Northern Territory : Dwellings and Householders, Part III. — Australian Capital Territory : Population, Part IV. — Australian Capital Territory: Dwellings and Householders and Part V. — External Territories : Population and Dwellings. A separate Volume has been prepared for each State and for Australia as a whole.

Inside the back cover of this Part is a list of 1954 Census publications issued by this Bureau.

Explanatory Notes relative to the contents of the Part follow the Table of Contents.

EXPLANATORY NOTES

Urban and Rural Divisions (Divisions of State). Because of the smallness of the population the designation "Metropolitan Urban" has not been applied to any area in the Northern Territory at any Census to date. The "Divisions of State" for the Northern Territory — Other Urban (term retained for uniformity with State Volumes), Rural and Migratory — as defined for Census purposes and as referred to throughout this Part, are constituted as follows : —

Other Urban — Comprises the towns of Darwin (the principal town of the Northern Territory) and Alice Springs. At the time of the 1947 and 1954 Censuses there was no system of local government in the Territory similar to that which exists in the States, so boundaries of these towns were specially adopted for Census purposes. In the case of Darwin, for the 1954 Census the boundaries were those of the area known at that time as "Proposed Greater Darwin", which embraced a considerably larger area than did the boundaries adopted at the 1947 Census. This area must not be confused with the Municipality of Darwin which was constituted on 28th June, 1957. The differences between the 1947 and 1954 Census areas for Darwin and the new Municipality of Darwin are explained in a footnote to Table No. 53. For Alice Springs, the area covered by the town at these two Censuses may be regarded as unaltered.

Rural — Comprises the remainder of the Territory, and is affected by the changed boundaries of Darwin.

Migratory — Refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954, were travelling on ships in Northern Territory waters or on long-distance trains or aircraft.

Variation in the boundaries of the town of Darwin must be borne in mind when making comparisons between Censuses for urban and rural populations.

Age. — In tables relating to age herein, ages recorded at Censuses have been adjusted by distribution of unspecified ages, i.e., instances where ages have been omitted from the Census schedule. At Censuses prior to 1954 unspecified ages were distributed proportionally after completion of tabulation (over ages 15 years and upwards, except at the 1911 Census, when an attempt was made to distinguish "children" from "adults", and the distribution was made over ages 0–14 years and 15 years and over). At the 1954 Census unspecified ages were distributed over all ages prior to tabulation.

The system employed at the 1954 Census was as follows. Four packs, each of 500 cards, with ages entered thereon in appropriate proportions, were made up for each sex, and the cards were arranged in random order. The packs consisted of : — (i) a "children's" pack — ages 0–15 years, (ii) a "work force" pack — ages 16–64 years for males and 16–59 years for females, (iii) an "aged" pack — ages 65–80 years for males and 60–80 years for females, and (iv) a "general" pack — ages 16–80 years. On encountering an instance of a missing age the procedure was to determine from other information available on the Schedule the appropriate pack to be used, and the range within which the missing age must lie. This pack was then searched until the first card containing an age within that range was found, and the age thereon was inserted on the Schedule. When no supplementary information was available to determine a range of age, the "general" pack was used. A more detailed explanation of this procedure will be contained in the Statistician's Report.

Nationality. — In all Census tabulations naturalized British persons are included under the heading "British". Separate particulars of these persons are not available.

Religion. — Under the Commonwealth Census and Statistics Act the Census question on religion has always been optional, but it was not until the 1933 Census that this was stated on the Census form, a practice that has been continued at subsequent Censuses. The very large increase since 1921 in the number of persons who apparently were unwilling to answer the inquiry is to be attributed to the explicit statement that an answer is not obligatory.

The broad features of this Part may be ascertained from the Table of Contents on page 2, but to facilitate reference to particular subjects an index is also provided — see end of publication.

This Part contains particulars relating to each characteristic of the population obtained from the 1954 Census tabulations. However, additional information is available in some instances, but limitations of space prohibit its publication in complete detail. Such additional information relating to this Part and also to Part II. — Northern Territory : Dwellings and Householders may be obtained on inquiry from the Commonwealth Statistician.

Particulars of full-blood aboriginals are excluded throughout.

CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 1954.

NOTE. — "Not at Work", as shown in Tables Nos. 43-52, includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
